

The Rotary Club of Truro Evolution

Rotary is the biggest international humanitarian organisation which we are proud to be part of.

We take part in local community events and help build community spirit through fun events, whilst supporting the aims of major international projects such as the End Polio Now campaign and Shelterbox.

If you are organising an event and need some extra help, feel free to ask!

...reaching out locally and globally

The Rotary Club of Truro, Evolution is a like-minded group of Rotarians who prefer an informal approach to Rotary meetings.

Attendance is flexible to fit around work, business and personal obligations. The informal meetings are lively and light in nature, but we get a lot done – check out our projects, past and present.

We meet once a month, at Shelterbox HQ Truro, over coffee and cake, when we host speakers and chat over forthcoming events and plans.

Sometimes we organise our own events although you will generally find us helping out for other charity fundraisers.

There is usually a strong element of socialising involved . . . and lots of cake!
